# learn your size

It makes buying the right clothes a whole lot easier.

---

## Waist

Measure around your natural waistline, keeping the tape comfortably loose.

## Hips

Standing with your heels together, run a tape measure around the fullest part of your seat, keeping the tape measure parallel to the floor.

## Torso

Run a tape measure diagonally across your body, starting at your shoulders. Extend it over the fullest part of the bust, between your legs, and run it back to the starting point.

## Chest/Bust

Measure around the fullest part of your chest, keeping the tape measure parallel to the floor. Make sure your arms are relaxed.

## Inseam

Find a pair of pants that fit you well, then lay them flat on the floor. Measure the inner leg seam from the inner thigh to the bottom of the hem.

# wondering how different brands fit?

It can be tricky finding the right fit, we know. Keep in mind that women's sizes come in even numbers, and juniors' sizes come in odd. Sizing can vary by brand—the tips below will help you get started.
