

ABOMINABLE SNOWMAN COOKIES

1. Gather your ingredients: vanilla ice cream, butter, chocolate chips, yogurt-covered almonds, coconut shreds, an ice cream scoop, blue food dye, eggs, mini marshmallows and sugar cookie mix.

2. Mix the sugar cookie batter according to the directions on the package.

3. Add blue food dye until it reaches a medium, teal blue.

4. Bake the cookies as directed on the package and set them on a cooling rack to cool completely.

5. Add a scoop of ice cream to the top of a cookie. This will serve as the bottom of your ice cream sandwich. Then, place another cookie on top. Tilt it slightly backward so that the backs of the two cookies are touching – this will create the space for the mouth of the creature.

6. Sprinkle coconut around the outside of the ice cream, coating it completely.

7. Cut a yogurt-covered almond in half. Use the ice cream as “adhesive” and attach the almond halves onto the bottom cookie to create the teeth.

8. Smoosh the tip of a chocolate chip into a mini marshmallow. Then, using the same technique, attach the marshmallow eyes to the front of the top cookie.

9. Sprinkle more coconut around the ice cream sandwich and on top, being careful not to get any in front of the eyes.

10. The cookie sandwich should look like an abominable snowman popping out of the snow.

11. Quickly eat these Abominable Snowman Cookies before they disappear back into the #HalloweenHills ice!
