

PIN THE APPENDAGE ON THE ZOMBIE

1. Gather your supplies: multicolored paper, sticky tack, brass fasteners, scissors, fabric glue, tape, a pencil, a thick black marker, an X-Acto blade and multicolored felt.

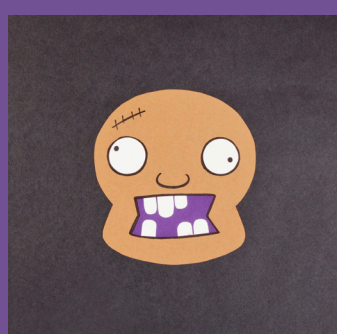

2. Design the head and torso of the zombie and trace them onto the multicolored paper.

3. Design the limbs of the zombie and trace them onto the multicolored paper. Each limb should be in two parts, to allow for movement along the joints.

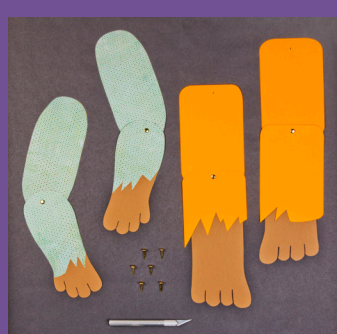

4. Cut out the head of the zombie. Using multicolored paper and the black marker, design the face of the zombie.

5. Glue the eyes and mouth to the zombie, and add any embellishments with the black marker.

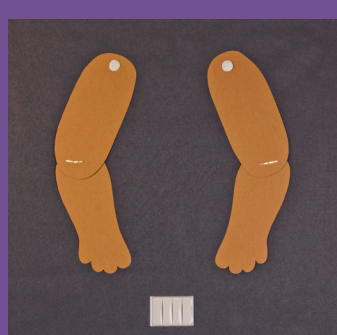

6. Cut out the arms and legs, and use the tape to add clothes.

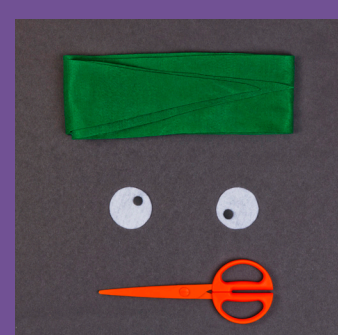

7. At the points where the limbs intersect, create a small hole using the X-Acto blade then poke a brass fastener through.

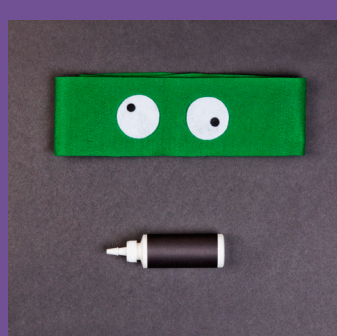

8. Add clothes to the torso as well, and then tape the head to the torso.

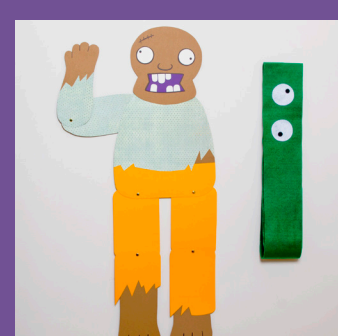

9. Place two small pieces of sticky tack to the back of the zombie's arms.

10. For the blindfold, cut out a long strip of green felt, two circles of white felt, and two smaller, black circles.

11. Using the fabric glue, attach the white circles to the green fabric, and the black circles to the white circles to create the eyes.

12. Attach the zombie to the wall using sticky tack.

13. Put the blindfold on your guests and invite them to take a chance at pinning the appendage on the zombie! #HalloweenHills
